

Eve Double Pro-line

Iconic design and state-of-the-art charging technology

The Eve Double Pro-line is Alfen's smart charging solution with two sockets, optimally suited for private and semi public locations. In 2017, Alfen redesigned the Eve Double Pro-line from the ground up taking into account the latest in charging technology and the needs of EV drivers. This unit has a large display screen, improved user interface, and a new high-tech, reliable hardware platform including several features along with easy configuration and operation.

Certified Alfen dealer:

Eve Double Pro-line

Full colour 7" LED Display

RFID card reader

Type 2 socket

Solid, durable housing

Optional steel mounting pole

The charging station

Built in protection

The Eve Double Pro-line is equipped with two RCDs as well as 6mA DC detection. This built-in protection allows for a more cost-efficient installation.

Easy configuration

An externally accessible Ethernet Port makes it easy to connect the Eve Double Pro-line to a PC and configure the charge point with the user friendly Installer.

Smart Charging

With its redesigned soft and hardware, the Eve Double Pro-line supports various features such as smart charging networks, load balancing and OCPP 1.6.
